# Roy Castle Lung Cancer Foundation Finds a New Home

The Roy Castle Lung Cancer Foundation has leased Building 1000 at the Vortex Court development at Wavertree. The Roy Castle Lung Cancer Foundation which was established in 1990 has taken the 14,202 sq ft building on a 10 year lease.

The decision to move premises was made by the charity due to the expansion of key services which include smoking cessation, education and training, retail and patient support. The move has been funded with the help of Liverpool University and the NWDA. The university will take the existing space in the charity's former headquarters - the Roy Castle Building in the centre of Liverpool. This has allowed the charity to move to bigger premises which can relocate its entire team, including the smoking cessation team, under one roof.

The charity's vital research into the early detection of lung cancer will continue to be conducted from the Roy Castle Building. The new building will be named the Roy Castle Centre and will house around 70 staff with room for expansion.

Mike Unger, Chief Executive of The Roy Castle Lung Cancer Foundation, said "This is an extremely important stage in the charity's development and will help us deliver our much-needed services. Cases of lung cancer are constantly increasing and both patients and carers need our help in coping with its devastating effects. The new building will

deliver an improved, streamlined service."

David Colvin from Matthews & Goodman the agents who acted on behalf of the Roy Castle Lung Cancer Foundation commented "Matthews and Goodman, acting on behalf of The Roy Castle Lung Cancer Foundation, had looked at a number of relocation options both in the City Centre and out of town business park locations and established Vortex 1000 at Wavertree to be the most suitable for a variety of reasons. The quality of building specification and amenity coupled with the ease of access and excellent parking facilities made the choice relatively straightforward."

Building 1000 at Vortex Court is one of three detached state of the art office buildings located on the popular Wavertree Technology Park. Totalling 56,000 sq ft the scheme was developed by Northern Trust in two phases. Wavertree Technology Park is set in attractive surroundings and benefiting from ample car parking the estate is easily accessible with good transport links to the rest of the region.

## How will the 2008 Pre-Budget Report affect you?

This article is taken from [www.businesslink.gov.uk](http://www.businesslink.gov.uk)

The 2008 Pre-Budget Report sets out how the Government is working to achieve its long-term economic goal to secure and maintain economic stability.

Businesses are facing an exceptionally challenging economic climate with uncertainty over the short to medium term. The decisive steps the Government has taken to help ensure financial stability are critical to business, and action, such as the temporary reduction in the rate of VAT, will provide significant support during the economic downturn. The Government is taking further action to help businesses respond to the current economic challenges over the short term.

The 2008 Pre-Budget Report announces:

- VAT. The standard rate of VAT has been reduced by 2.5 per cent from 17.5 per cent to 15 per cent from 1st December 2008 to 31 December 2009, when it will revert to 17.5 per cent. Only standard-rated sales are affected. There are no changes to sales that are zero-rated for VAT. Similarly, there are no changes to the VAT exemptions.
- Business Rates. There is to be a temporary increase in the threshold for empty property relief. For the financial year 2009/10, empty properties with a rateable value of less than £15,000 will be exempt from business rates. Legislation will be introduced to give businesses more time to pay certain backdated business rates bills issued before 31 March 2010. Businesses facing such bills will be able to pay

their liability for previous years in equal interest-free installments over eight years, rather than immediately.

- Measures to help small and medium-sized enterprises facing credit constraints, including a new Small Business Finance Scheme to support up to £1 billion of bank lending; a separate £1 billion guarantee facility to support bank lending to small exporters; a £50 million fund to convert businesses' debt into equity; and a £25 million regional loan transition fund;
- New HMRC Business Payment Support Service to allow businesses in temporary financial difficulty to pay their HMRC tax bills on a timetable they can afford. This will provide a dedicated helpline for customers who are worried about being able to pay taxes owed to HMRC.

- More generous tax relief for businesses now making losses and the modification of a number of planned tax reforms, including vehicle excise duty, air passenger duty, and deferral of the increase in the small companies rate of corporation tax; and

- Package of reforms to the taxation of foreign profits, including the introduction of a foreign dividend exemption for large and medium-sized businesses, supported by a worldwide debt cap on interest.
